

INNOVATION

Soon your tenants will have the option to fill out their screening applications on-line, from any computer, at any place, at any time. We are testing our new Padzilla system and software now, and expect this system upgrade to be ready and rolled out in early April. This amazing software links directly to our computers here in Saco. It affords you the option to shift our \$20.00 screening fee to the tenants themselves! It even lets you file Reports of Tenancy on-line, and earn a \$4.00 credit doing so. We intend to transform how property is rented in Maine. Give us a call, and we'll tell you all about it!

WE'RE LOOKING FOR HELP

Tenant-Net is looking for part-time employees (2–4) in central and coastal Maine willing to collect Court records on a regular basis.

We pay mileage, and would consider flat fee or per hour work arrangements. If you know someone looking for a relatively easy position who lives in or near Lewiston, Farmington, Augusta, Waterville, Belfast, Rockland or Wiscasset, please give us, or have them give us, a call at 1-800-883-2074. Ask for Tami for additional details.
