

News For You

Its official! Padzilla.Com is up, and already many Tenant-Net customers are taking advantage of FREE tenant screening. Come see the future of property rental in Maine.

And, if you have some extra time, check out our home site: www.goodtenants.net. We've spruced up the place. You'll find new features including: helpful articles and publications, a posting of our corporate beliefs and values, and a whole section devoted to our on-going data security efforts. For example, did you know we encrypt all names, social security numbers and driver's license numbers within all our records, or, that we use AES, the most secure form of encryption commercially available?

We're working on additional product/service enhancements as well. One pet project of ours has recently gone from conceptual idea to development research. We hope to tell you more about it in the coming months. Padzilla.Com, HUSHMAIL, new web features: this is Tenant-Net delivering the future, one data bit at a time.

The screenshot shows the Tenant-Net website with the following elements:

- Logo:** TENANT-NET with a checkmark in the 'T'.
- Tagline:** Exceeding Expectations
- Navigation Menu:** Why Screen Tenants, About Tenant-Net, Products and Services, Becoming A Member, Forms, Criminal Records, Privacy/Records Security, Publications/Guides, Hours and Holidays, Help for Tenants, Help for Owners and Managers, Contact Us.

Hush Means Secure

Tenant-Net, in conjunction with HUSH.COM, has set up a special service for those customers who receive their search results via E-mail. As many know, E-mail is not a secure means of transmitting data. Credit reports and other confidential records can be viewed by hackers as they pass from E-mail server to server. A typical E-mail might pass through 4 to 5 servers before landing in a mail box.

With HUSHMAIL, you can now go to a secure web site, type in a simple password, and view Tenant-Net search results forwarded in encrypted form. With encryption, prying eyes see only gibberish as your confidential records travel across the Internet.

There are no costs or fees at all, no difficult set up process, no special software necessary. Just call us, and we can easily set you up for HUSHMAIL service. It's innovation at work for you, from your friends at Tenant-Net.
