

88,000!!!

That's the number of Maine evictions Tenant-Net puts at your fingertips. No one, no other screening provider, has these evictions or even makes the effort to go to Maine's District Courts to secure them.

We think you need this vital information...

Every day we also collect Maine Money Judgments. Already we have collected and recorded almost 5,000 Money Judgment actions arising in 2007 and 2008. We expect this number to rapidly climb as the economy worsens, and tightening credit squeezes finances.

We think knowing who pays their bills is critical...

Tenant-Net: Peace of mind in unsettling times.
